

# Engineering - Bridging the Gap for a Sustainable and Resilient Recovery

Event Date: May 4, 2021 01:00 PM in **New York (GMT-4)**

Alik Ismail-Zadeh

Shamila Nair-Bedouelle

GONG Ke

Marlene Kanga

Milda Pladaite

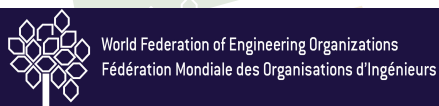

K.N. Gunalan

This is a Side Event organized by WFEO in collaboration with ISC at the Science & Technology Innovation (STI) Forum for the Sustainable Development Goal 2021.

This event is to present the second UNESCO Engineering Report: "**Engineering for Sustainable Development: Delivering on the Sustainable Development Goals**"; discuss the crucial role of engineering in the implementation of the SDG's and more importantly, how to bridge the gap and make sustainable and resilient recovery from this and any in the future pandemics.

*This event is generously hosted by WFEO; and sponsored by ASCE.*
