# ABOUT

The Global AI Summit is a two-way conversation that engages every attendee, speaker, and partner in a rich dialogue about how AI can solve complex problems, empower businesses, shape our future, and ultimately, transform society.

From local and regional "visions" to the united economic framework, the Global AI Summit gathers the most prominent policy makers, leading investors, thought leaders and innovators in the field today.

In the spirit of co-creation, speakers and participants will be invited to contribute to a vision for AI that will live on beyond the summit.

THEMES

▶ AI NOW

AI Now is about giving attendees practical tools through keynotes, workshops, panels, and technology demonstrations that will drive their roadmaps.

The Summit begins when we press play.

▶| AI NEXT

AI Next looks ahead to the change makers & pioneers who are paving the way for AI to solve some of the world's most meaningful challenges.

We look to the future by pressing fast forward.

|| AI NEVER

AI Never challenges the audience and speakers to engage in debates about the ethics & responsible use of AI across a range of domains and topics.

In a united voice, ask ourselves when to press stop.
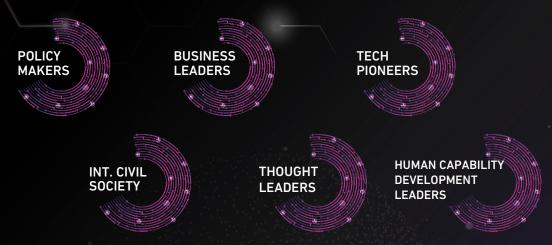

OBJECTIVES

To create a Disruptive Global Platform, where AI leaders & pioneers from every corner of the world come together to connect & collaborate.
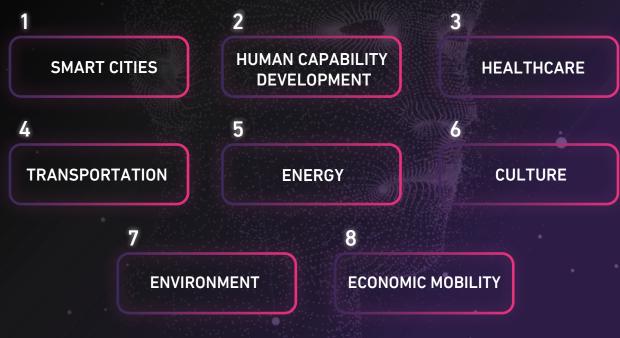

To inspire & catalyze a Worldwide Movement, we need to evolve from ideas to action. Or, where ideas become real fast.
