

EECON

2016 17-18 NOV PERTH

Pan Pacific Perth Hotel, 207 Adelaide Terrace, Perth

A Professional Development Initiative of the Electric Energy Society of Australia

EVOLUTION IN THE ELECTRICITY INDUSTRY – UNDERSTANDING THE OPPORTUNITIES & THREATS

PLENARY SESSION 1:

Understanding the Future
Market Reform in WA

PLENARY SESSION 2:

Integrate Conventional and New
Technologies in all forms of Energy

**Session topics with parallel paper
presentation from leaders in the industry.**

- a. Operating in the Market
- b. New technologies.
- c. Power Reliability for large and medium size users – How to manage aging assets
- d. Best practices in Electrical Infrastructure project management (leading to lower cost projects)
- e. Satisfying stakeholders in the Electricity Networks
- f. Innovative New designs for changing networks – challenges and opportunities
- g. Maintaining Power Quality/Reliability/Safety standards in a lower cost environment.
- h. Integration of conventional technologies with new technologies in the market place.
