

## Committee on Energy

### WFEO Energy Committee Meeting

**April 21, 2021 – Last meeting in a nutshell**

**(minutes will come later)**

### Energy transition & Covid-19 crisis: the role of engineers

Date (to be confirmed): as soon as possible - Summer or Autumn 2021

Format:

- A virtual conference
- 2 or 3 half days

Organization:

- Call for speakers based on a short overview of the proposed presentation.
- Proceedings of the conference

Sessions:

Each session: roughly one hour, 2 or 3 speakers (to be adapted)

1. Resilience of energy systems to Covid-19 crisis: experience feedback
2. A larger definition for resilience: a new understanding of risks
3. Energy demand: evolution or disruption?
4. On the supply side: the demands of the citizens
5. Lessons learned so far: the role of engineers

Organizing Committee (to be completed): Massimiliano Capezzali, Daniel Favrat, Jean Eudes Moncomble, Jorge Spitalnik

### Task Groups; work in progress

Jean Eudes Moncomble, CE Chair, ask to each CE member to join a Task Group. Please indicate by mail ([energy@wfeo.org](mailto:energy@wfeo.org)) in which group(s) you want to work.

Chairs and editors of the Tasks Groups will receive soon the emails of members registered in their TG.

- 2 Task Groups are in pause: Nuclear and CCUS.
- Sustainable energy Task Group is launched (Chair: Pradeep Chaturvedi).
- The others Task Groups go on (Solar, Energy internet, Energy storage, Hydrogen, Electrification).

It is important now that Task Groups produce documents.

### Sustainability & Resilience

As IAEA has done with nuclear (*Nuclear Power for Sustainable Development* – report available in Pcloud), this study will link UN Sustainable Development Goals to each primary energy.

A specific document will be soon circulated on this very important crosscutting study.
