

Committee on Energy

WFEO Energy Committee Meeting

July 13, 2022 – Last meeting in a nutshell (minutes will come later)

Task Groups – work in progress

- Energy storage – Philip Pascall: Philip Pascall was excused.
- Energy internet – Hongbin Sun, represented by Feng Gao: presentation of slides about the task group's work.
- Hydrogen – Jean Eudes Moncomble: members of the TG have worked on different parts of the topic. Jean Eudes proposed a first partial draft to the group. There will be another meeting shortly.
- Solar – Carsten Ahrens: Carsten started to update the WFEO report and will present a first chapter updated for next meeting.
- Electrification – Abubakar Sambo, represented by Fyne Ogolo: the TG have noted last plenary meeting's observations and the work won't be focused only on Africa. A position paper will be ready in about one month.

Format of the reports: each report should have an executive summary of one page.

Jean Eudes Moncomble asks each task group's Chair to have a first written paper for next plenary meeting (19th October 2022). These papers must be discussed first within the task group, and then within the plenary meeting to be validated and circulated as WFEO-CE publications.

Task Force COP27, work in progress – Jorge Spitalnik

Davide Stronati, Chair of WFEO Engineering and the Environment Committee, was invited to this meeting and presented his Committee and its work.

Jorge Spitalnik is preparing a one page declaration. This declaration is a Committee of Energy declaration but maybe it could be a joined declaration with the Environment Committee. The draft will be discussed within the Task Group and then at next plenary meeting.

Organization of a webinar

The Committee will organize an online symposium about the vulnerability (or resilience) of energy systems. This topic has been discussed with the regional Vice Chairs and some main points were outlined: taking the example of some energy technology systems; crossing technology with geopolitics. The online symposium will take place at the end of 2022 or the beginning of 2023.

Miscellaneous

The members who will come to the WFEO governance meetings, in October in Paris, will be invited to participate in a dinner by Jean Eudes Moncomble. Please inform us and write to wfeo@wec-france.org before 1st October if you are coming to the governance meetings in Paris.

Next plenary meeting

Wednesday 19 October 2022, 14:00 – 16:00 Paris time, online
