Summary of Peru Meeting

The Committee had two workshops in Lima along with the normal meeting session. The workshops were on two of the three themes:

- Leadership and Empowerment as an in-house workshop.
- Engineering workforce Diversity: The Executive committee led by the President Jorge Spitalnik , STC chairs and National members honoured our invite and were in attendance.
- There were a lot of discussions on the material used and the Theme lead was to go back work with the feedbacks. Further discussion will be in Rome, 2017.

International Women's Day

March 8th was the United Nations International Women's Day. The Committee was in communication with members encouraging different activities to mark the day.

However, towards the programme, The Peru Engineers Association invited a 10minutes recorded message for the programme been organized to celebrate the Day.

The committee therefore recorded a message that was sent to all members of the Committee to use in the respective programmes.
