New Energy Era - Opportunities for Women's leadership

Dr. Ruomei Li

**Electrical Engineer
EC, World Federation of Engineering Organizations (WFEO)
Chair, IEEE PES WIP of China**

CSW63, New York, 15nd March 2019

Future Energy Trend: Green, Distributed, Diversity

Green Energy

1

Resource: Wind, Solar, Water, Geothermal, Biomass, Biogas

Utilization: Electricity Generation, Heating/Cooling,

Distributed Structure

2

Local/home Supply, Micro-Grid, Middle & Small Capacity

Diversification

3

Multi-Supply: Electricity, Heating/Cooling

Multi Consumption: Lighting, Air Conditioner, Power, Electric Car

Energy Revolution

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

Yesterday

Concentrated, fossil fuel energy

Today

Distributed, renewable energy

The change is not only on the technology, but also on business model and social structure.

Energy Revolution

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

Grid interconnection

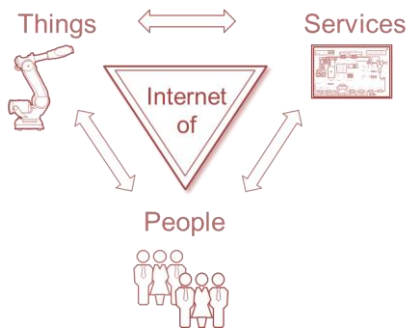

Energy storage

Roof top solar & microgrid

Digitalization

Power Market

New business models

Cross-border fusion, Innovation Integration

Energy Revolution will bring..

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

- More convenient and healthier

Energy Revolution will bring..

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

- consumer → producer + consumer

Energy Revolution will bring..

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

- More job opportunities

Energy Revolution will bring..

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

- More channels for growth, learning and teaching...

Women's special advantage

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

- ✓ **Network Thinking**
- ✓ **Environment Sensibility**
- ✓ **Social Capability**
- ✓ **Marketing Talent**

The customers need energy services on convenience, resilience, economic, reliable,

In this age of energy revolution, there are great opportunities for women to win the leadership and play the key function!

Women Role Model

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

**Dr. Marlene
Kanga
President of WFEO**

**WFEO's international influence
has been increasing**

**Global women & young
engineers status are well
improved**

**WFEO has played good function
in engineering capability building**

Role Model

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

**Queen Mother
Dr. Delois Blakely**

Community mayor of Harlem, New York

The **ambassador of Goodwill to Africa**

The **founder of New Future Foundation**

Champions the aspirations of **women, children and youth**

Champions' **education, basic business training, microcredit, entrepreneurship**

World Federation of Engineering Organizations
Fédération Mondiale des Organisations d'Ingénieurs

Thank you for your time!

Dr. Ruomei Li
