

SERVIÇO PÚBLICO FEDERAL
CONSELHO FEDERAL DE ENGENHARIA E AGRONOMIA – CONFEA

To President Marlene Kanga,

World Federation of Engineering Organizations – WFEO

Maison de l'Unesco

1, rue Miollis

75015 Paris, France

Brasília-DF, April 3rd, 2019.

Dear President,

On behalf of Federal Council of Engineering and Agronomy of Brazil (*Conselho Federal de Engenharia e Agronomia – Confea*), created and regulated by Federal Decree nº 23.569, of 1933, Federal Decree nº 23.196, of 1933 and Federal Law 5.194, of 1966, we would like to express our honor to be the national member from Brazil at WFEO.

After a lot of internal discussions, we feel that the participation of CONFEA in WFEO will be more effective if we are a voting member.

In our point of view, it will be most representative for Brazil if CONFEA has a vote at WFEO. CONFEA is the largest engineering organization in Brazil congregating and inspecting more than 1.000.000 million professionals (engineers, technologists and agricultural technicians) and 300.000 of engineering companies.

We kindly ask that the members of WFEO consider the application of CONFEA to be the national member from Brazil. CONFEA is ready to pay the fees for 2019 as soon as possible if approved.

Thank you, in advance, about your efforts and support to our request.

Best Regards,

Eng. Civ. Joel Krüger
President of Confea
