Sub: SUPPORT FOR DECLARATION OF WORLD ENGINEERING DAY FOR CLIMATE CHANGE ACTION AND SUSTAINABILITY

Dear Ms. Azoulay,

On behalf of the members of the Institution of Engineers, Pakistan I am writing to indicate the strong support of our organisation for the ***Declaration of 4th March of each year as World Engineering Day for Climate Change Action and Sustainability.***

The Institution of Engineers, Pakistan is the National body for Pakistan with responsibilities for advancement of Science & Technology and dissemination of Engineering knowledge by holding Conferences, Seminars and Lectures etc.

We directly or indirectly represent more than 12000 corporate members about 50000 non corporate members.

If declared, our organisation commits to celebrate World Engineering Day with a wide range of activities that promote the role of engineering for climate change action and sustainability as urgent action is needed in these areas. Such celebrations will improve community recognition of the importance of engineering to society and the economy.

The activities to celebrate World Engineering Day is expected to encourage young people, girls and boys, to raise the number of people studying science and mathematics, increasing the intake of engineers into universities. This is critical for the sustainable development of our country.

We anticipate that our activities will reach and have an impact on more than 1 million people in our country/region.

Yours sincerely,

Engr. Dr. Izhar ul Haq
President
Institution of Engineers, Pakistan
