Paris, FRANCE.

Dear Ms Azoulay,

RE: Support for Declaration of World Engineering Day for Climate Change Action and Sustainability

The Institution of Engineers Tanzania (IET) is a non-profit making institution whose mission is to promote the engineering profession in Tanzania and beyond. Some of its objects are to promote the general advancement of the science and practice of Engineering and its applications, and to facilitate exchange of information and ideas on those subjects amongst the members of the Institution.

On behalf our members, the Institution of Engineers Tanzania (IET) wish to join other Engineering Institutions/organizations in the World supporting the Declaration of 4th March of each year as World Engineering Day for Climate Change and Sustainability.

If declared, our Institution commits to celebrating the event each year as we believe with a wide range of activities we will promote the role of engineering for climate change action and sustainability in the community.

The activities to celebrate World Engineering Day are expected to encourage young people, girls and boys, to increase the number of people studying science and mathematics, and increase the intake of engineers into universities. This is critical for the sustainable development of our country.

Best regards,
Institution of Engineers Tanzania

Eng. Ngwisa W. Mpembe
President

Promotion of Engineering Excellence in Tanzania

Member of the Commonwealth Engineers Council (CEC) and the World Federation of Engineering Organizations (WFEO)
