Subject: **Support for Declaration of World Engineering Day for Climate Change Action and Sustainability**

Dear Ms. Azoulay,

On behalf of the members of the Philippine Institute of Civil Engineers, Inc.; I am writing to indicate the strong support of our organization for the Declaration of 4th March of each year as World Engineering Day for Climate Change Action and Sustainability.

The Philippine Institute of Civil Engineers (PICE), Inc. is the only accredited professional organization of civil engineers in the Philippines with the mission of advancing the welfare of its members and the development and prestige of the civil engineering profession and to be a dynamic force in nation building.

We directly represent around 88,950 civil engineers in the Philippines.

If declared, our organization commits to celebrating World Engineering Day with a wide range of activities that promote the role of engineering for climate change action and sustainability as urgent action is needed in these areas. Such celebrations will improve community recognition of the importance of engineering to society and the economy.

The activities to celebrate World Engineering Day is expected to encourage young people, girls and boys, to raise the number of people studying science and mathematics, increasing the intake of engineers into universities. This is critical for the sustainable development of our country.

We anticipate that our activities will reach and have an impact on 110 million people in our country.

Yours sincerely,

MARIA CATALINA E. CABRAL, Ph.D.
National President
Philippine Institute of Civil Engineers, Inc.
